STRENGTHS

Flexibility

Committed to new projects or helping others work to complete tasks efficiently, either in remote or office locations.

Results Driven

Devoted to the key goals, delivering workloads with excellent quality and within time constraints.

Enthusiastic Learner

Enthusiastic to learn new coding languages or methods of improving performance, always seeking to improve my skill set.

ACHIEVEMENTS

Released Game

Produced and published my own game over the last 4 months of my university course, frequently updating it with new content, the game has received praise by players.

My Personal Website!

Developed and created my first website using HTML and CSS, frequently updating.

Professional Pitch

Participated with other students to develop a basic game and pitch presentation for a games studio within a short deadline. This was well received by the company, they advised we would get funding for this.
